(incorporated with limited liability in England and Wales with registered number 01373876)

Under this £15,000,000,000 Euro Medium Term Note Programme (the **Programme**), Motability Operations Group plc (the **Issuer**) may from time to time issue notes (the **Notes**) denominated in any currency agreed between the Issuer and the relevant Dealer (as defined below).

The payment of all amounts due in respect of the Notes issued under the Programme on or after the date hereof will be unconditionally and irrevocably guaranteed by Motability Operations Limited (the **Original Guarantor**) and each (if any) additional guarantor (each an **Additional Guarantor** and, together with the Original Guarantor, the **Guarantors**).

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed £15,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “*Description of the Programme*” and any additional Dealer appointed under the Programme from time to time by the Issuer (each a **Dealer** and together the **Dealers**), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the **relevant Dealer** shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see “Risk Factors”.

This Offering Circular has been approved as a base prospectus by the United Kingdom (**UK**) Financial Conduct Authority (the **FCA**) in accordance with the rules in Prospectus Rules: Admission to Trading on a Regulated Market sourcebook (the **PRM**) made pursuant to its rule-making powers under the Public Offers and Admissions to Trading Regulations 2024 (the **POATRs**). The FCA only approves this Offering Circular as meeting the standards of completeness, comprehensibility and consistency imposed by the rules in the PRM. Such approval should not be considered as an endorsement of the Issuer, the Original Guarantor or the quality of the Notes that are the subject of this Offering Circular. Investors should make their own assessment as to the suitability of investing in the Notes.

Applications have been made to the FCA for Notes issued under the Programme during the period of 12 months from the date of this Offering Circular to be admitted to the official list of the FCA (the **Official List**) and to the London Stock Exchange plc (the **London Stock Exchange**) for such Notes to be admitted to trading on the London Stock Exchange’s main market (the **Market**). The Market is a UK regulated market for the purposes of Regulation (EU) No 600/2014 on Markets in Financial Instruments as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the **EUWA**) (**UK MiFIR**).

The Issuer has senior long-term debt ratings of A- by S&P Global Ratings, acting through S&P Global Ratings UK Limited (**S&P**) and A3 by Moody’s Investors Service Ltd. (**Moody’s**). Each of S&P and Moody’s is established in the UK and each is registered in accordance with Regulation (EC) No. 1060/2009 as it forms part of UK domestic law by virtue of the EUWA (the **UK CRA Regulation**). Each of S&P and Moody’s is not established in the European Economic Area (**EEA**) and has not applied for registration under Regulation (EC) No. 1060/2009 (as amended, the **CRA Regulation**). However, S&P Global Ratings Europe Limited has endorsed the ratings of S&P and Moody’s Deutschland GmbH has endorsed the ratings of Moody’s, in accordance with the CRA Regulation. Each of S&P Global Ratings Europe Limited and Moody’s Deutschland GmbH is established in the EEA and registered under the CRA Regulation. Notes to be issued under the Programme may be rated or unrated. Where a Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes is rated, such rating will be specified in the applicable final terms document (the **Final Terms**) and will not necessarily be the same as the ratings specified above. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche of Notes will be set out in the Final Terms which will be delivered to the FCA and the London Stock Exchange. Copies of the Final Terms will also be published on the website of the London Stock Exchange through a regulatory information service.

No Dealer or the Trustee accepts any liability in relation to the information contained or incorporated by reference in this Offering Circular or any other information provided by the Issuer and/or any of the Guarantors in connection with the Programme.

No person is or has been authorised by the Issuer, the Guarantors, the Dealers or the Trustee to give any information or to make any representation not contained in or not consistent with this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, any of the Guarantors, any of the Dealers or the Trustee.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes: (a) is intended to provide the basis of any credit or other evaluation; or (b) is or is intended to be, nor should be considered as a recommendation or a statement of opinion (or a report of either of those things) by the Issuer, any of the Guarantors, any of the Dealers or the Trustee that any recipient of this Offering Circular or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and/or the Guarantors. Neither this Offering Circular nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of the Issuer or any of the Guarantors, any of the Dealers or the Trustee to any person to subscribe for or to purchase any Notes.

None of the delivery of this Offering Circular, any Final Terms or the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Issuer and/or any of the Guarantors is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuer or any of the Guarantors during the life of the Programme or to advise any investor in the Notes of any information coming to their attention.

The Notes and the Guarantees have not been and will not be registered under the United States Securities Act of 1933, as amended (the *Securities Act*) or with any securities regulatory authority of any state or other jurisdiction of the United States and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (see “*Subscription and Sale*”).

The Issuer, the Guarantors, the Dealers and the Trustee do not represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Guarantors, the Dealers or the Trustee which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the EEA, Belgium, the UK, Japan and Singapore, see “*Subscription and Sale*”.

If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Dealers or any affiliate of the Dealers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the Dealers or such affiliate on behalf of the Issuer in such jurisdiction.

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must make its own assessment as to the suitability of that investment in light of its own circumstances. In particular, each potential investor should consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understands thoroughly the terms of the relevant Notes and is familiar with the behaviour of the financial markets;
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks; and

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Certain statements in this Offering Circular, including those under the captions “Risk Factors”, “Description of the Issuer” and “Description of the Original Guarantor” constitute “forward-looking statements”. Such forward-looking statements involve risks, uncertainties and other factors which may cause the actual results, performance or achievements of the group, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such risks, uncertainties and other factors include, among others, the risk of lower than anticipated residual values of assets and of higher than anticipated insurance costs, industry trends, changes in government regulation, changes in business strategy or development and other risks described in “Risk Factors”. There can be no assurance that the results and events contemplated by the forward-looking statements contained in this Offering Circular will, in fact, occur.

These forward-looking statements speak only as at the date of this Offering Circular. The Issuer and the Guarantors will not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this Offering Circular except as required by law or by any appropriate regulatory authority.

STABILISATION

In connection with the issue of any Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes, any Dealer or Dealers acting as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

MiFID II PRODUCT GOVERNANCE / TARGET MARKET

The applicable Final Terms in respect of any Notes may include a legend entitled “*MiFID II Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a *distributor*) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, *MiFID II*) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue of Notes about whether, for the purpose of the Product Governance Rules under EU Delegated Directive 2017/593 (the *MiFID Product Governance Rules*), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET

The applicable Final Terms in respect of any Notes may include a legend entitled “*UK MiFIR Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a *UK distributor*) should take into consideration the target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the *UK MiFIR Product Governance Rules*) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue of Notes about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a *retail investor* means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 (the *Prospectus Regulation*). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the *PRIPs Regulation*) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS

The Notes are not intended to be offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the UK. For these purposes a *retail investor* means a person who is either one (or both) of the following: (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the POATRs. Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook (*DISC*) for offering, selling or distributing the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Notes or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

SINGAPORE SFA PRODUCT CLASSIFICATION

In connection with Section 309B of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the *SFA*) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the *CMP Regulations 2018*), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are ‘prescribed capital markets products’ (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

BENCHMARKS REGULATION

Amounts payable on Floating Rate Notes to be issued under the Programme may be calculated by reference to certain reference rates such as the Euro Interbank Offered Rate (*EURIBOR*) or the Sterling Overnight Index Average (*SONIA*) as specified in the applicable Final Terms. Any such

reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 (the *EU Benchmarks Regulation*) and/or Regulation (EU) No 2016/1011 as it forms part of UK domestic law by virtue of the EUWA (the *UK Benchmarks Regulation*).

If any such reference rate does constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (*ESMA*) and/or the FCA pursuant to Article 36 (*Register of administrators and benchmarks*) of the EU Benchmarks Regulation and/or Article 36 (*Register of administrators and benchmarks*) of the UK Benchmarks Regulation, respectively. The registration status of any administrator under the EU Benchmarks Regulation and the UK Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update any applicable Final Terms to reflect any change in the registration status of the administrator.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should consider carefully the factors and risks associated with any investment in the Notes, the business of each of the Issuer and the Original Guarantor and the industry in which they operate, together with all other information contained in this Offering Circular including, in particular, the risk factors described below.

Each of the Issuer and the Original Guarantor believes that the following factors are specific to the Issuer and the Original Guarantor and/or to the Notes and which are material for taking an informed assessment decision as these risks may affect the ability of the Issuer and the Original Guarantor to fulfil its obligations under Notes issued under the Programme. Most of these factors are contingencies which may or may not occur. If any of these risks occur, the business, financial condition and performance of each of the Issuer and the Original Guarantor could suffer and the trading price and liquidity of the Notes could decline.

Each of the Issuer and the Original Guarantor believes that the factors described below represent the material risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer or the Original Guarantor to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and neither the Issuer nor the Original Guarantor represent that the statements below regarding the risks of holding any Notes are exhaustive.

The Issuer's obligations under the Notes will be guaranteed by the Original Guarantor (the Issuer and the Original Guarantor being, together, the "Group") and, unless otherwise specified, the following factors that are described as factors that may affect the Group are factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme and the Original Guarantor's ability to fulfil its obligations under its Guarantee.

Structural Risks

The Issuer is a holding company

The Issuer is a holding company and is completely dependent on the performance of its operating subsidiaries, the Original Guarantor and MO Reinsurance Limited (**MORL**). As a holding company, the Issuer does not engage in, or conduct, any operating business itself. Its principal assets are the shares in its two wholly-owned operating subsidiaries, one of which is the Original Guarantor, and the other, MORL. Consequently, the Issuer is dependent on the economic, financial and operating results of its operating subsidiaries and is therefore indirectly exposed to the same risks as those faced by its operating subsidiaries. Any deterioration in the business, financial condition or results of operations of the Issuer's operating subsidiaries or their ability or willingness to pay dividends to the Issuer would also materially adversely affect the Issuer and its ability to service its payment obligations under the Notes.

Industry and Business Risks

Risk of lower than anticipated residual values

The Group is the largest sole vendor supplier of used vehicles in the UK. Residual values of these vehicles are exposed to an adverse movement in second-hand vehicle prices, which can be the result of a number of factors, including general economic conditions (including the long-term impact of the Covid-19 pandemic, the impact of prolonged inflationary pressures and the impact of heightened global uncertainty regarding the imposition of tariffs and other trade barriers or protectionist policies in the United States, China, the European Union and other countries), rapid Scheme growth, the supply and values of second-hand vehicles, in particular, for electric vehicles where the outlook remains challenging, new vehicle market prices, model changes, the market's transition to electric vehicles and legislative requirements (for example, changes to environmental legislation). The Group's exposure to unforeseen and material movements in the market for second-hand vehicles is measured as the difference between the forecast values used for pricing and the market value at disposal. There is the risk of forecasting errors and model risk given the present levels of market uncertainty and volatility. Changes in second-hand market values, especially for electric vehicles, could materially affect the Group's ability to sell these vehicles and could adversely affect the Group's results. The Group's operations are also concentrated in the UK and, therefore, the Group is particularly exposed to downturns in UK second-hand vehicle market prices. Generally, deteriorating residual values can lead to volatility in profitability, reserves, pricing with consequential effects on affordability, vehicle availability and customer choice.

Poor remarketing performance could lead to a failure to realise benchmark values

There is also an associated risk of differences arising between the benchmark market value and the net proceeds that are realised on disposal of vehicles. Given the large volumes of used vehicles being sold and given also the large concentrations that sometimes occur, in particular, vehicle types and models, the effectiveness of the Group's remarketing performance can significantly impact the extent to which benchmark market values may be realised and thereby adversely affect the Group's results.

Risk of higher than anticipated insurance costs

Assumptions are made in the lease price of a vehicle as to the expected costs of insurance over the course of the lease, based on an actuarial assessment provided by the Group's insurance partner, the Direct Line Group or the Aviva Group (following Aviva plc's acquisition of Direct Line Insurance Group, it is the Issuer's understanding that Aviva plc expects to complete the transfer of the Direct Line Group's relevant insurance business to Aviva Insurance Limited under Part VII of the FSMA in December 2026), and forecasts developed by the Group. All new leases are subsequently reinsured by the Issuer's captive insurance subsidiary, MORL which is domiciled in the Isle of Man. MORL reinsures 80 per cent. of the Scheme's motor insurance exposure and the remaining 20 per cent. of such exposure is retained by the Direct Line Group, or after the Part VII transfer of the relevant insurance business, by the Aviva Group. If forecast insurance costs turn out to be incorrect, the lease will either be over or under priced. Higher insurance costs can be driven, for example, by insurance market inflation, changes to the Scheme risk portfolio (such as younger drivers or more customers that are new to the Scheme) and changes to car technology and associated repair costs as well as reinsurance costs and increasing claims. In addition, the UK Government has removed the Scheme's exemption from Insurance Premium Tax (IPT), affecting new leases under the Scheme with effect from 1 July 2026. An increase in insurance costs could have an adverse impact on the affordability of vehicle leases.

Risk of reduced affordability or availability

Due to the UK Government's decision to change the taxation affecting new leases under the Scheme with effect from 1 July 2026, continued cost pressures and constrained supply as manufacturers respond to the UK Government's zero emission vehicle mandate, as well as wider market conditions, there is ongoing pressure on vehicle and lease pricing and vehicle availability, which may limit the Scheme's ability to offer a broad range of competitively priced options that meet customer needs. This could result in reduced affordability or choice, which could impact customer retention, weaken the proposition the Scheme offers disabled people, and increase financial and reputational pressures on the business.

Transformation risk

Failure to manage the transition to electric vehicles effectively could reduce the Scheme's sustainability and limit customer access to affordable mobility solutions. The Group's inability to deliver the electric vehicles transformation could result in customer dissatisfaction, defection or loss of future opportunities. Failure to successfully deliver the transition to electric vehicles against a backdrop of affordability pressure could increase the risk of competition and customer retention, adversely affecting the Group's current business, prospects and results of operations.

The Group's relationship with its major suppliers and service providers is important to its business and the failure or loss of a major supplier or service provider or a material change of the terms on which the Group obtains its key products and services could adversely affect its business

The Group secures significant discounts on the purchase of new vehicles. If manufacturers move to reduce production capacity and/or choose not to supply vehicles through the Scheme or face major supply chain challenges, then the ability of the Group to maintain high discounts or offer a wide choice of vehicles for customers may be eroded. Although such effects may also flow through into increased second-hand vehicle values, lease pricing could be adversely affected.

The Group's suppliers are key to its success, with many providing essential frontline services and handling vital contact points with customers, providing vehicle insurance, roadside assistance, and tyre and windscreen replacement services. The Group has engaged with third parties who have a strong record in customer service. Each of those major services (vehicle insurance, roadside assistance and tyre and windscreen replacement, respectively) is provided to the Group by one relevant provider for each service. This allows the Group to negotiate beneficial commercial terms as a result of the substantial volume of business referred to the relevant supplier or service provider. However, the failure, underperformance or loss of a key supplier or service provider or a material change of the terms on which the Group obtains its key products and services could adversely affect the Group's business, detrimentally impacting on

customer service and potentially could have significant financial implications as the Group would need to seek alternative arrangements.

The Group's results could be harmed by a severe decline in the results of operations or financial condition of vehicle manufacturers supplying the Group's fleet

The Group is at risk from the failure of one or more of its key manufacturers. Such a failure could lead to impaired residual values, invalid warranties, non-availability of parts and maintenance providers, and potential withdrawal or renegotiation of discounts and thereby adversely affect the Group's results. The Issuer is also subject to a concentration risk resulting from its high reliance on certain manufacturers such as Ford, Vauxhall, Volkswagen and Nissan. The Group is working closely with UK-based manufacturers to increase the share of British-built vehicles being leased by customers. In the short-term, this includes doubling the number of Nissan British-built vehicles that the Scheme leases to around 40,000, which further subjects the Group to concentration risk.

The Group's operations are dependent to a significant extent on its ability to develop, retain and attract key personnel and high-quality employees

The Group believes that a principal driver for its future success will be the experience and the active involvement of employees at all levels in initiatives to improve the business. The recruitment, retention and engagement of such personnel is critical to the Group's long-term profitability and commercial success. Should the Group encounter any significant employee relations issues or lose key personnel, the Group's current business, prospects and results of operations might be adversely affected.

Risk of higher than anticipated maintenance costs

Assumptions are made in the lease price of a vehicle as to the expected costs of maintenance over the course of the lease. If these forecasts turn out to be incorrect, the lease will either be over or under priced. An increase in parts and labour prices could have an adverse impact on the affordability of vehicle leases.

Risk from credit default

The Group's principal source of income is received from the UK Government (the Department for Work and Pension (**DWP**), the Service Personnel and Veterans Agency, the Northern Ireland Social Security Agency and Social Security Scotland (**SSS**)) through the allowances assigned by the Group's customers. Since this income is assigned by the Group's customers and received from the UK Government, the credit risk is low. Following the UK Government's decision to change the taxation affecting new leases under the Scheme with effect from 1 July 2026, changes have been made to the Scheme for new leases commencing from 1 July 2026, including an increase to the excess mileage fee, that will have potential implications for vehicle affordability for customers. If the UK Government transferred responsibility of payment to customers, as with Housing Benefit under Universal Credit, the Group could be exposed to significant credit risk. There remains residual credit risk from sources including the UK Government withdrawing allowances to the Group's customers, miscellaneous customer billings, investments, insurers, reinsurers, monies due from dealers, auction houses and vehicle manufacturers. MORL has exposure to financial institutions through investments or financial instruments. The Group has exposure to reinsurers who may build up substantial premium rebate balances that are owed to the Group. The failure of any of the financial institutions, reinsurers and other counterparties to which the Group has exposure, directly or indirectly, to perform their contractual obligations, and any losses resulting from its failure, may materially and adversely affect the Group's current business, prospects and results of operations.

Reputational risk

The financial performance of the Group could be adversely affected by damage to its reputation. Any adverse event that manifests itself through media coverage, civil action, criminal prosecution, or any other such outcome could result in a loss of business which would have an adverse impact on the ability of the Issuer to fulfil its obligations under the Notes issued under the Programme and/or the ability of the Original Guarantor to fulfil its obligations under its Guarantee.

Financial Risks

Risks relating to the funding of the Group

The availability of funding for the Group's operation

The Group is exposed to the risk of the lack of available liquidity and funding or the risk that the cost of funding impacts on the competitiveness of the Group's lease agreements. If the Group is unable to fund

on commercially acceptable terms, its current business, future prospects, financial condition and results of operations may be adversely affected. Volatility in funding costs could lead to inconsistent or elevated lease pricing and restricted access to future funding required to finance the vehicle fleet. In addition, a weaker UK sovereign debt rating due to uncertainty around the UK economy and political instability may negatively impact the Issuer's long term credit ratings and/or outlook. Any deterioration in the Issuer's credit ratings would increase the cost of borrowing and may restrict access to future funding for the Group and thereby adversely affect lease pricing of vehicles which, in turn, could adversely affect the Group's financial results.

Fluctuations in interest rates could adversely affect the Group's financial results

The Group has an exposure to movements in interest rates on its floating rate debt. To manage this risk, the Group enters into interest rate swaps to ensure that the majority of its interest costs are fixed rate to match the Group's fixed rental income. The Group's policy is that at least 90 per cent. of the borrowings at the balance sheet date are fixed interest rate. To the extent that the Group has not successfully hedged the risk associated with interest rate movements, fluctuations in interest rates could adversely affect the Group's financial results.

Operational Risks

Failure of internal or external systems, processes and policies, cyber risk and information

A failure of, or interruption in, the communications and information systems on which the Group or MORL is heavily reliant in the conduct of its business could severely disrupt the Group's operations and compromise data, adversely affecting its revenues, profitability and reputation. The Group or MORL could be subjected to cyber-attacks that could result in slow performance, loss or temporary unavailability of its information systems and being held to ransom by the perpetrator. Information security risks have increased because of new technologies (such as artificial intelligence), the use of the internet and communication technologies (including mobile devices) to conduct financial and other business transactions, and the increased sophistication and activities of organised crime, perpetrators of fraud, hackers, terrorists, and others. These risks have been exacerbated by geopolitical tensions and the use of cyber tactics for disruption to business. Significant disruption from extreme weather, system outages, ransomware attacks or other incidents could impair service delivery. The occurrence of any of these events could result in fewer customer applications being received, slower processing of applications and reduced efficiency in business operations.

Inadequate process management could lead to poor decision-making which may have an adverse impact on the Group's business or MORL's business. Poor planning and ineffective policies could result in the inability of the current infrastructure (building, systems) or resources (employees, the Group's suppliers) to cope with business expansion as fleet volumes grow and stretch existing capacities.

A failure in internal processes such as loss of or inappropriate use of data or unauthorised access to infrastructure or data (including connected car, Drive Smart driving data and application use (including electric charging data)) could have the effect of damaging the Group's reputation and a breach of the General Data Protection Regulation (**UK GDPR**) can result in a substantial fine and significant reputational damage.

Notwithstanding anything stated in this risk factor, this risk factor should not be taken as implying that the Issuer will be unable to comply with its obligations as a company with securities admitted to the Official List.

Fraud

Financial and other controls play an important part in the Group's and MORL's ability to prevent and detect inappropriate and unethical behaviour. This includes fraud, and despite the Group's and MORL's control systems to prevent the incidence of fraud, there remains a risk of fraudulent activity perpetuated internally or externally (but not including disability benefit fraud which falls outside the remit of the Group) to misappropriate Group or MORL assets or circumvent company policy or legislation. To the extent that substantial amounts were misappropriated and remained undetected for a significant time period, the financial and reputational impact on the Issuer and/or the Original Guarantor and/or MORL could be considerable.

Tax, regulatory, legal and other risks

Taxation

Unexpected movements in the corporation tax rates and capital allowance rules, or further changes to the current IPT relief and, most importantly, Value Added Tax (VAT) relief that the Group benefits from currently, compared to those priced into the leases could have an adverse effect on the Group. The UK Government's decision, announced in the UK Autumn Budget on 26 November 2025, changing the taxation affecting new leases under the Scheme, with effect from 1 July 2026, including measures removing the exemption from IPT for the Scheme and the Scheme being subject to VAT at 20 per cent. on (i) advance payments (being additional upfront payments made by customers over and above the rental payments that are covered by their eligible welfare benefits (**Advance Payments**)), and (ii) any other payments that are made by customers that are not covered by their welfare benefits, will increase the overall cost base of the Scheme, with potential implications for vehicle affordability for customers and could have a material adverse effect on the Group's business. VAT on rental payments covered by eligible welfare benefits and VAT on disposal proceeds of ex-lease vehicles continue to be zero-rated. VAT reliefs remain in place for vehicles substantially and permanently adapted for wheelchair and stretcher users and for scooters and motorised wheelchairs, and a new structural relief has been introduced for IPT to reflect those VAT reliefs. The extent of any effect of any further tax changes depends on the nature of any such changes in taxation, significantly the extent to which it affects existing leases, the reserves position of the existing fleet or the affordability of new business. Changes in taxation could potentially erode the competitiveness of the Group and adversely affect the Group's business and financial results.

The Group has reached agreement in principle with the Scottish Government to apply the changes that have been made to the Scheme for new leases with effect from 1 July 2026 (save for customers who receive their allowance from SSS) to such Scottish customers from 1 September 2026. However, the definitive contractual arrangements have not yet been agreed or executed. The Group and the Scottish Government have publicly communicated the intended commencement date. Any delay, failure to agree the definitive contractual position or material change to the Scheme changes that have taken effect from 1 July 2026 could result in operational disruption, additional costs, customer complaints and adverse reputational consequences for the Group.

Social Security Regulations and UK legislation

The Group operates the Scheme pursuant to the Social Security (Claims and Payments) Regulations 1987 (the **Social Security Regulations**), Section 44 as amended. Under the Social Security Regulations the Secretary of State may arrange for the Higher Rate Mobility Component (**HRMC**) of the Disability Living Allowance, the new Personal Independence Payment, the Adult/Child Disability Payment (Scotland) payable to a beneficiary to be assigned in settlement of their payments due under the Scheme. Under the Social Security Regulations the Secretary of State has the power at any time to prevent such payments being made to the Original Guarantor, and if this power were to be exercised the Scheme could no longer operate.

The Secretary of State or Parliament could alter existing legislation or introduce new legislation (for example, the replacement of the current Disability Living Allowance with a Personal Independence Payment for 16 to 64 year olds) or exercise its rights under existing legislation to remove the relevant concessions from Motability, a company incorporated by Royal Charter (company number RC000716) and a registered charity (number 299745 (England and Wales) and number SCO50642 (Scotland)) and operating as Motability Foundation (the **Foundation**) or to otherwise remove the Group from the Scheme. This could have a material adverse effect on the Group's business.

There is also the risk that the UK Government may not increase the allowance in line with the Group's pricing assumptions, resulting in lower than anticipated income projections.

Changes to, or non-compliance with, governmental laws, regulations or policies could adversely affect the Group's and/or MORL's business or subject the Group or MORL to possible additional funding, revocation of licences, liability for penalties or damages

Changes to the laws, regulations or policies in the UK or the Isle of Man may have a negative impact on the Group's and/or MORL's business. Legislative or policy changes, including welfare reform (such as the outcome from the review process known as the Timms Review which is expected to report in the Autumn) or adjustments to the UK Government's zero emission vehicle mandate, could significantly

affect Scheme operations, leading to adverse impacts on customer outcomes, compliance, the Group's financial performance and delivery of its strategic objectives.

The failure to comply with applicable laws, regulations or policies in the UK or the Isle of Man could result in significant penalties or monetary damages, additional funding requirements, possible revocation of licences and damage to reputation, brand and valued customer relationships. The Group is expected to comply with health and safety laws, as well as legislation such as the Consumer Credit Act 1974 and the Data Protection Act 2018. In particular, the Original Guarantor is authorised and regulated by the FCA and is thereby required to satisfy and comply with a range of consumer credit legislative and regulatory requirements. If the Original Guarantor is unable or fails to satisfy or comply with such requirements in the future, the FCA could revoke the authorisation and permission of the Original Guarantor and, consequently, render the Group unable to trade within the consumer credit market. There could also be legislation introduced in the future that may affect the Group's ability to run the Scheme under current conditions. If any of the Group's businesses was found to be in breach of such legislation, it could be subject to significant penalties or damages claims. Serious breach of the Health and Safety at Work etc. Act 1974 could lead to suspension of operations until the breach is rectified. This could also result in adverse publicity for the Group.

The UK GDPR created a range of new compliance obligations, increased financial penalties for non-compliance and extended the scope of the previously applicable data protection laws. The sanctions for breaching UK GDPR could result in a substantial fine in the event of a breach and significant reputational damage.

Breach of Service Agreement

The Original Guarantor and the Foundation are party to the scheme agreement dated 25 September 2003 and the side letter to that scheme agreement dated 30 June 2008, as further amended and restated on 18 December 2024 between the Issuer, the Original Guarantor and the Foundation, and as may be further amended from time to time (together, the **Service Agreement**). The Original Guarantor has exclusive rights under the Service Agreement with the Foundation to provide contract hire lease services subject to seven years' written notice or termination. There is a risk that if the Original Guarantor breaches the Service Agreement or fails to meet performance targets, the Foundation may serve notice of termination. There are provisions within the Service Agreement for early termination, providing the Original Guarantor is in a position to prepay all its borrowings and indebtedness.

Climate change risk

The Group could experience losses and/or reputational damage as a result of climate change mitigation measures

The actions taken by governments and society to try and limit global warming may adversely impact the Group causing financial losses and/or reputational damage. For example, the Group could be impacted by new, more stringent government policies on emissions. Customer transition to electric vehicles is reliant upon many factors such as vehicle suitability, price and charging infrastructure.

Climate change and associated regulation may affect customer suitability for electric vehicles, supplier stability, and operational resilience, while physical climate impacts may disrupt activity that could adversely affect the Group's financial results.

Climate-related disruption or reduced electric vehicle suitability could influence customer demand, increase costs and volatility, and lead to longer-term financial and reputational impacts on the Scheme. This would impact carbon reduction plans and the Group's ability to meet its science-based targets.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return

An optional redemption feature of Notes is likely to limit their market value and the secondary market of the Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned

Fixed/Floating Rate Notes bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing interest rates on those Notes and could affect the market value of an investment in the relevant Notes.

The regulation and reform of “benchmarks” may adversely affect the value of, and return on, any Notes linked to or referencing such “benchmarks”

Reference rates and indices, including interest rate benchmarks, such as EURIBOR, which are used to determine the amounts payable under financial instruments or the value of such financial instruments, have, in recent years, been the subject of political and regulatory scrutiny as to how they are created and operated. This has resulted in regulatory reform and changes to existing “benchmarks”. These reforms and changes may cause a benchmark to perform differently than it has done in the past or to be discontinued. Any change in the performance of a benchmark or its discontinuation, could have a material adverse effect on any Notes referencing or linked to such benchmark.

The EU Benchmarks Regulation applies to the provision of in-scope benchmarks, the contribution of input data to an in-scope benchmark and the use of an in-scope benchmark within the EU. Among other things, it: (i) requires benchmark administrators to be authorised or registered (or, if non-EU based, to be subject to an equivalent regime or otherwise recognised or endorsed); and (ii) prevents certain uses by EU supervised entities of in-scope benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or otherwise recognised or endorsed). The UK Benchmarks Regulation, among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or otherwise recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark which is in-scope of one or both regulations, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in a benchmark; and/or (iii) leading to the disappearance of a benchmark. Uncertainty about the future of benchmarks, any of the above changes or any other consequential changes as a result of international or national reforms or any other initiatives or

investigations, could have a material adverse effect on the value of, and return on, any Notes linked to, referencing or otherwise dependent (in whole or in part) upon a benchmark and the trading market for such Notes.

The “*Terms and Conditions of the Notes*” provide for certain fallback arrangements in the event that an Original Reference Rate and/or any page on which an Original Reference Rate may be published (or any other successor service) becomes unavailable or a Benchmark Event otherwise occurs. The fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate, with the application of an Adjustment Spread and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Issuer (acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser). An Adjustment Spread could be positive, negative or zero and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of an Original Reference Rate. The use of a Successor Rate or Alternative Rate (including with the application of an Adjustment Spread) may result in any Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

Furthermore, in certain circumstances, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser and the potential for further regulatory developments there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, or any of the international or national reforms and the possible application of the benchmark replacement provisions of Notes in making any investment decision with respect to any Notes referencing a benchmark.

The market may continue to develop in relation to risk-free rates (including SONIA) as reference rates for Floating Rate Notes

Investors should be aware that the market may continue to develop in relation to SONIA as a reference rate in the capital markets for Sterling bonds and its adoption as an alternative to the London Interbank Offered Rate.

Investors should be aware that SONIA (and other risk-free rates) differ from inter-bank offered rates such as EURIBOR for example in a number of material respects, including that SONIA (and other risk-free rates) are backwards-looking, compounded, risk-free overnight rates, whereas inter-bank offered rates such as EURIBOR are expressed on the basis of a forward-looking term and include a risk-element based on inter-bank lending. As such, investors should be aware that risk-free rates and inter-bank offered rates may behave materially differently as interest reference rates across the Issuer’s various financing arrangements leading to differing interest calculations.

Interest for Notes referencing risk-free rates, such as SONIA, is calculated on the basis of the compounded risk-free rate. For this and other reasons, the interest rate on such Notes during any Interest Period will not be the same as the interest rate on other investments linked to the risk-free rate that use an alternative basis to determine the applicable interest rate.

In addition, market conventions for calculating the interest rate for bonds referencing risk-free rates continue to develop and market participants and relevant working groups are exploring alternative reference rates based on risk-free rates. For example, on 3 August 2020, the Bank of England, as the administrator of SONIA, began publishing the SONIA Compounded Index. Accordingly, the specific formula for calculating the rate used in the Notes issued under this Offering Circular may not be widely adopted by other market participants, if at all. The Issuer may in the future also issue Notes referencing risk-free rates that differ materially in terms of interest determination when compared with any previous Notes referencing risk-free rates issued by it. If the market adopts a different calculation method, that could adversely affect the market value of Notes issued pursuant to this Offering Circular.

Risk Factors

Interest on Notes which reference a risk-free rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference risk-free rates to reliably estimate the amount of interest which will be payable on such Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which factors could adversely impact the liquidity of such Notes. Furthermore, if the Notes become due and payable under Condition 9, or are otherwise redeemed early on a date which is not an Interest Payment Date, the Rate of Interest payable shall be determined on the date the Notes became due and payable and shall not be reset thereafter.

Risk-free rates such as SONIA are published and calculated by third parties based on data received from other sources and the Issuer has no control over their respective determinations, calculations or publications. There can be no guarantee that SONIA or the SONIA Compounded Index will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Notes linked to or which reference such rates (or that any applicable benchmark fallback provisions provided for in the Terms and Conditions of the Notes will provide a rate which is economically equivalent for Noteholders). The Bank of England does not have an obligation to consider the interests of Noteholders in calculating, adjusting, converting, revising or discontinuing SONIA or the SONIA Compounded Index. If the manner in which the relevant risk-free rate, such as SONIA, is calculated is changed, that change may result in a reduction of the amount of interest payable on such Notes and the trading prices of such Notes.

In addition, the market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Terms and Conditions of the Notes and used in relation to Notes that reference SONIA issued under this Offering Circular. Investors should carefully consider how any mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

Notes which are issued at a substantial discount or premium may experience price volatility in response to general changes in interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

The Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors and confer significant discretions on the Trustee which may be exercised without the consent of the Noteholders and without regard to the individual interests of particular Noteholders

The Terms and Conditions of the Notes contain provisions for calling meetings (including the holding of physical or, wholly or partly, virtual meetings by means of electronic facility or facilities (including telephone and video conference platforms)) of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Trustee may, without the consent of Noteholders and without regard to the interests of particular Noteholders: (i) agree to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the Trust Deed (as defined under “*Terms and Conditions of the Notes*”); (ii) determine that any Event of Default (as defined under “*Terms and Conditions of the Notes*”) or potential Event of Default shall not be treated as such, where in any such case it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders; (iii) agree to any modification which is of a formal or minor or technical nature or is made to correct a manifest error or an error which, in the opinion of the Trustee, is proven; or (iv) agree to the substitution of another company as principal debtor under any Notes in place of the Issuer, in the circumstances described in Condition 14.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in their account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

The value of the Notes could be adversely affected by a change in English law or administrative practice

The Terms and Conditions of the Notes are based on English law in effect as at the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to English law or any administrative practice after the date of issue of the relevant Notes and any such change could materially adversely impact the value of any Notes affected by it.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Notes may never be established or it may be illiquid and this would adversely affect the value at which an investor could sell their Notes

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

If the level of global credit market conditions experienced during 2008 were to recur at the same level or worsen, whereby there is a general lack of liquidity in the secondary market for instruments similar to the Notes, such lack of liquidity may result in investors suffering losses on the Notes in secondary resales even if there is no decline in the performance of the assets of the Issuer.

If an investor holds Notes which are not denominated in the investor's home currency, they will be exposed to movements in exchange rates adversely affecting the value of their holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes and the Guarantors will make any payments under the Guarantees in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the

Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or any Guarantor to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

Credit ratings assigned to the Issuer or any Notes may not reflect all risks associated with an investment in those Notes

As described on the front page of this Offering Circular, certain credit rating agencies have assigned credit ratings to the Issuer's senior long-term debt obligations and one or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, EEA regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restrictions will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication on the ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK-registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances.

If the status of the rating agency rating the Notes changes, for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment. This may result in relevant regulated investors selling the Notes which may impact the value of the Notes and their liquidity in the secondary market. Where a Tranche of Notes is rated, such rating will be specified in the applicable Final Terms and certain information with respect to the credit rating agencies will be disclosed in the applicable Final Terms.

Notes may not be suitable investment for all investors seeking exposure to social assets meeting social criteria set by some investors

The applicable Final Terms in relation to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply an amount equal to the net proceeds of the issue of such Notes to finance and/or refinance, in part or in full, Eligible Social Projects (as defined in "Use of Proceeds"). The Dealers are not responsible for assessing or verifying whether or not the Eligible Social Projects meet the prescribed eligibility criteria or for the monitoring of the use of proceeds. Prospective investors should have regard to the information set out in the Issuer's Social Bond Framework (see "Use of Proceeds") regarding such use of proceeds (see "Use of Proceeds") and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation

such investor deems necessary. In particular, no assurance is given by the Issuer, the Original Guarantor, the Dealers or any of their respective affiliates or any other person that the use of such proceeds for any Eligible Social Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect social impact of any Eligible Social Projects or uses, the subject of or related to, any Eligible Social Projects.

The definition (legal, regulatory or otherwise) of, and market consensus as to what constitutes or may be classified as “social” or “sustainable” or equivalently-labelled project and the requirements of any such label continue to develop and evolve, and different organisations may develop definitions or labels that are different from, and may be incompatible with, those set by other organisations. A basis for the determination of the definitions of “social”, “sustainable” and “sustainability-linked” has been established in the EU with the publication in the Official Journal of the EU on 22 June 2020 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 (the **EU Sustainable Finance Taxonomy**) on the establishment of a framework to facilitate sustainable investment. The EU Sustainable Finance Taxonomy is subject to further development by way of the implementation by the European Commission through delegated regulations of technical screening criteria for the environmental objectives set out in the EU Sustainable Finance Taxonomy. Until the technical screening criteria for such objectives have been developed, it is not known whether any specified social projects will satisfy those criteria. Accordingly, alignment with the EU Sustainable Finance Taxonomy, once the technical screening criteria are established, is not certain.

No assurance or representation is given by the Issuer, the Original Guarantor, the Dealers or any of their respective affiliates or any other person as to the suitability or reliability for any purpose whatsoever of any opinion, report or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and, in particular, with any Eligible Social Projects to fulfil any social and/or other criteria. For the avoidance of doubt, none of any such opinion, report, certification or the Issuer’s Social Bond Framework are, or are deemed to be, incorporated in and/or form part of this Offering Circular or the applicable Final Terms. Any such opinion, report or certification is not, nor should be deemed to be, a recommendation by the Issuer, the Original Guarantor, the Dealers or any other person to buy, sell or hold any such Notes. Any such opinion, report or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion, report or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions, reports and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated ‘social’, ‘sustainable’ or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), or are included in any dedicated ‘social’, ‘sustainable’ or other equivalently-labelled index or indices, no representation or assurance is given by the Issuer, the Original Guarantor, the Dealers or any of their respective affiliates or any other person that such listing or admission, or inclusion in such index or indices, satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect sustainability or social impact of any projects or uses, the subject of or related to, any specified Eligible Social Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another and also the criteria for inclusion in such index or indices may vary from one index to another. Nor is any representation or assurance given or made by the Issuer, the Original Guarantor, the Dealers or any of their respective affiliates or any other person that any such listing or admission to trading, or inclusion in any such index or indices, will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading, or inclusion in such index or indices, will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply an amount equal to the net proceeds of any Notes so specified for Eligible Social Projects in, or substantially in, the manner described in the Issuer’s Social Bond Framework (see “*Use of Proceeds*”) and the applicable Final Terms, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Eligible Social Projects will be capable

Risk Factors

of being implemented in, or substantially in, such manner and/or in accordance with any timing schedule and that accordingly such net proceeds will be totally or partially disbursed for such Eligible Social Projects. Nor can there be any assurance that such Eligible Social Projects will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Issuer.

Any such event or failure to apply the net proceeds of any issue of Notes for any Eligible Social Projects as aforesaid and/or withdrawal of any such opinion, report or certification or any such opinion, report or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion, report or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market or inclusion in such index or indices as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance or refinance Eligible Social Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will initially be issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Final Terms, a permanent global note (a **Permanent Global Note** and, together with a Temporary Global Note, the **Global Notes**) which, in either case, will:

- (i) if the Global Notes are intended to be issued in NGN form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a Common Safekeeper for Euroclear and Clearstream; and
- (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a Common Depositary for Euroclear and Clearstream.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will indicate whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream and Euroclear and/or Clearstream, as applicable, has given a like certification (based on the certifications it has received) to the Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for: (a) interests in a Permanent Global Note of the same Series; or (b) definitive Notes of the same Series with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, interest coupons and talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that: (i) an Event of Default (as defined in Condition 9) has occurred and is continuing; (ii) the Issuer has been notified that both Euroclear and Clearstream have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Trustee is available; or (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Global Note in definitive form and a certificate to such effect signed by two Directors of the Issuer is given to the Trustee. The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream (acting on the instructions of any holder of an interest in such Permanent Global Note) or the Trustee may give notice to the Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Agent.

The applicable Final Terms will specify whether the Notes will be represented upon issue by:

- (i) a Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for definitive Notes only upon an Exchange Event; or
- (ii) a Temporary Global Note exchangeable for definitive Notes on and after the Exchange Date; or
- (iii) a Permanent Global Note exchangeable for definitive Notes only upon an Exchange Event.

The exchange of a Permanent Global Note for definitive Notes upon notice from Euroclear and/or Clearstream (acting on the instructions of any holder) or at any time at the request of the Issuer should not be expressed to be applicable in the applicable Final Terms if the Notes are issued with a minimum Specified Denomination such as €100,000 (or its equivalent in another currency) plus one or more higher integral multiples of another smaller amount such as €1,000 (or its equivalent in another currency). Furthermore, such Specified Denomination construction is not permitted in relation to any issue of Notes which is to be represented on issue by a Temporary Global Note exchangeable for definitive Notes.

The applicable Final Terms will specify whether or not talons for future interest coupons are to be attached to definitive Notes where the Notes have more than 27 coupon payments, as talons may be required if, on exchange of such Notes into definitive form, more than 27 coupon payments remain to be made.

The following legend will appear on all Notes (other than Temporary Global Notes) which have an original maturity of more than one year and on all interest coupons relating to such Notes:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, as the case may be.

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream shall, whenever the context so permits (but not in the case of any NGN), be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer or any of the Guarantors unless the Trustee, having become bound so to proceed, fails or is unable to do so within a reasonable period and the failure or inability shall be continuing.

APPLICABLE FINAL TERMS

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a “retail investor” means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a “retail investor” means a person who is either one (or both) of the following: (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the **EUWA**); or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024. Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook (**DISC**) for offering, selling or distributing the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Notes or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.]

The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note.

This Note is one of a Series (as defined below) of Notes issued by Motability Operations Group plc (the **Issuer**) constituted by a Trust Deed dated 8 April 2009 (such Trust Deed as modified and/or supplemented and/or restated from time to time, the **Trust Deed**) made between, inter alia, the Issuer and Motability Operations Limited as guarantor (the **Original Guarantor**) and HSBC Corporate Trustee Company (UK) Limited (the **Trustee**, which expression shall include any successor as Trustee).

Interest bearing definitive Notes have interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Global Notes do not have Coupons or Talons attached on issue.

The final terms for this Note (or the relevant provisions thereof) are set out in Part A of the Final Terms attached to or endorsed on this Note which supplement these Terms and Conditions (the **Conditions**). References to the **applicable Final Terms** are to the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Note.

The Trustee acts for the benefit of the holders for the time being of the Notes (the **Noteholders**, which expression shall, in relation to any Notes represented by a Global Note, be construed as provided below) and the holders of the Coupons (the **Couponholders**, which expression shall, unless the context otherwise requires, include the holders of the Talons), in accordance with the provisions of the Trust Deed.

As used herein, **Tranche** means Notes which are identical in all respects (including as to admission to trading) and **Series** means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (a) expressed to be consolidated and form a single series and (b) identical in all respects (including as to admission to trading) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

The Noteholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Trust Deed, the Agency Agreement and the applicable Final Terms which are applicable to them. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed and the Agency Agreement.

Words and expressions defined in the Trust Deed, the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Trust Deed and the Agency Agreement, the Trust Deed will prevail and, in the event of inconsistency between the Trust Deed or the Agency Agreement and the applicable Final Terms, the applicable Final Terms will prevail.

In determining whether a particular person is entitled to a particular nominal amount of Notes as aforesaid, the Trustee may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, as the case may be. 4. Interest

4.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, or if the applicable Final Terms specify that a Fixed Coupon Amount or Broken Amount(s) applies in the case of Notes represented by a Global Note, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Unless specified otherwise in the applicable Final Terms, the **Following Business Day Convention** will apply to the payment of all Fixed Rate Notes, meaning that if the Interest Payment Date or Maturity Date would otherwise fall on a day which is not a Business Day (as defined in Condition 4.2(a) below), the related payment of principal or interest will be made on the next succeeding Business Day as if made on the date such payment was due. If the **Modified Following Business Day Convention** is specified in the applicable Final Terms for any Fixed Rate Note, it shall mean that if the Interest Payment Date or Maturity Date would otherwise fall on a day which is not a Business Day (as defined in Condition 4.2(a) below), the related payment of principal or interest will be made on the next succeeding Business Day as if made on the date such payment was due unless it would thereby fall into the next calendar month in which event the full amount of payment shall be made on the immediately preceding Business Day as if made on the day such payment was due. Unless specified otherwise in the applicable Final Terms, the amount of interest due shall not be changed if payment is made on a day other than an Interest Payment Date or the Maturity Date as a result of the application of a Business Day Convention specified above or other Business Day Convention specified in the applicable Final Terms.

Except in the case of Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or
- (b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 4.1:

- (a) if "Actual/Actual (ICMA)" is specified in the applicable Final Terms:

- (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
- (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (b) if “30/360” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In the Conditions:

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

4.2 Interest on Floating Rate Notes

(a) Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In the Conditions, **Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with subparagraph (a)(ii) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business

Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or

- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, **Business Day** means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre specified in the applicable Final Terms; and
- (b) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (ii) in relation to any sum payable in euro, a day on which the real time gross settlement system operated by the Eurosystem, or any successor system (the **TARGET System**) is open.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined as provided below:

- (1) where the Reference Rate is specified in the applicable Final Terms as being a Reference Rate other than the Sterling Overnight Index Average (**SONIA**), the Rate of Interest for each Interest Period will be either:

- (A) the rate or offered quotation (if there is only one rate or offered quotation on the Relevant Screen Page); or

- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates or offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (as specified in the applicable Final Terms) for deposits in the Specified Currency for that Interest Period which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) (as specified in the applicable Final Terms) as at the Specified Time on the Interest Determination Date in question plus or minus (as specified in the applicable Final Terms) the Margin (if any), all as determined by the Agent (or such other Calculation Agent specified in the applicable Final Terms). If, in the case of (B) above, five or more of such rates or offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest rate or offered quotation, one only of such rates or offered quotations) and the lowest (or, if there is more than one such lowest rate or offered quotation, one only of such rates or offered quotations) shall be disregarded by the Agent (or such other Calculation Agent specified in the applicable Final Terms) for the purpose of determining the arithmetic mean (rounded as provided above) of such rates or offered quotations.

If the Relevant Screen Page is not available or if, in the case of (A) above, no such rate or offered quotation appears or, in the case of (B) above, fewer than three of such rates or offered quotations appear, in each case as at the Specified Time, the Issuer (or such other Calculation Agent specified in the applicable Final Terms) shall request the principal London office of each of the Reference Banks to provide the Agent (or such other Calculation Agent specified in the applicable Final Terms) with its rate or offered quotation (expressed as a percentage rate per

annum) for the Reference Rate (as specified in the applicable Final Terms) for deposits in the Specified Currency for that Interest Period, at approximately the Specified Time, on the Interest Determination Date in question. If two or more of the Reference Banks provide the Agent (or such other Calculation Agent specified in the applicable Final Terms) with such rates or offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such rates or offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Agent (or such other Calculation Agent specified in the applicable Final Terms).

If on any Interest Determination Date one only or none of the Reference Banks provides the Agent (or such other Calculation Agent specified in the applicable Final Terms) with such rates or offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Agent (or such other Calculation Agent specified in the applicable Final Terms) determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates or quotations, as communicated to the Agent (at the request of the Issuer) (or such other Calculation Agent specified in the applicable Final Terms) by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time, on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the relevant inter-bank market or principal financial centre of the country of the Specified Currency, plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Agent (or such other Calculation Agent specified in the applicable Final Terms) with such rates or offered quotations, the rate or quotation offered for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the rates or offered quotations for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, which, at approximately the Specified Time, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Agent (or such other Calculation Agent specified in the applicable Final Terms) it is quoting to leading banks in the relevant inter-bank market or principal financial centre of the country of the Specified Currency, plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be that determined as at the Interest Determination Date for the last preceding Interest Period (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period).

- (2) (A) where the Reference Rate is specified in the applicable Final Terms as being SONIA and the Calculation Method is specified in the applicable Final Terms as being Compounded Daily Rate, the Rate of Interest for each Interest Period will be Compounded Daily SONIA for the Interest Period plus or minus (as indicated in the applicable Final Terms) the Margin, if any, all determined by the Agent (or such other Calculation Agent specified in the applicable Final Terms) on each relevant Interest Determination Date.

Compounded Daily SONIA means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) as calculated by the Agent (or such other Calculation Agent specified in the applicable Final Terms) on the Interest Determination Date in accordance with the following formula and the resulting percentage will be rounded if necessary to the fourth decimal place, with 0.00005 per cent. being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{Relevant SONIA}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

where:

d is the number of calendar days in:

- (i) where Lag is specified as the Observation Method in the applicable Final Terms, the relevant Interest Period; or

- (ii) where Shift is specified as the Observation Method in the applicable Final Terms, the relevant Observation Period;

D is the number specified as such in the applicable Final Terms (or, if no such number is specified, 365);

do is the number of London Banking Days in:

- (i) where Lag is specified as the Observation Method in the applicable Final Terms, the relevant Interest Period; or
- (ii) where Shift is specified as the Observation Method in the applicable Final Terms, the relevant Observation Period;

i is a series of whole numbers from one to d_o , each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (i) where Lag is specified as the Observation Method in the applicable Final Terms, the relevant Interest Period; or
- (ii) where Shift is specified as the Observation Method in the applicable Final Terms, the relevant Observation Period,

to and including, the last London Banking Day in such Interest Period or Observation Period, as the case may be;

London Banking Day means any day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London;

n_i for any London Banking Day **i**, means the number of calendar days from, and including, such London Banking Day **i** up to but excluding the following London Banking Day;

Observation Look-Back Period is as specified in the applicable Final Terms;

Observation Period means the period from, and including, the date falling **p** London Banking Days prior to the first day of the relevant Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) to but excluding, the date falling **p** London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling **p** London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

p means the number of London Banking Days specified as the Observation Look-Back Period in the applicable Final Terms and which shall not be specified in the applicable Final Terms as less than five without the prior agreement of the Agent (or such other Calculation Agent specified in the applicable Final Terms);

Relevant SONIA_i means:

- (i) where Lag is specified as the Observation Method in the applicable Final Terms, SONIA_{i-pLBD}; or
- (ii) where Shift is specified as the Observation Method in the applicable Final Terms, SONIA_{iLBD};

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA reference rate in respect of any London Banking Day. The SONIA reference rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA reference rate for the previous London Banking Day but without compounding.

SONIA_{iLBD} means, in respect of any London Banking Day **i** the SONIA reference rate for such London Banking Day **i**;

SONIA_{i-pLBD} means, in respect of any London Banking Day **i** falling in the relevant Interest Period, the SONIA reference rate for the London Banking Day falling **p** London Banking Days prior to the relevant London Banking Day **i**; and

SONIA reference rate means, in respect of any London Banking Day, a reference rate equal to the daily SONIA rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors, in each case on the London Banking Day immediately following such London Banking Day.

If, in respect of any London Banking Day on which an applicable SONIA reference rate is required to be determined, the Agent (or such other Calculation Agent specified in the applicable Final Terms) determines that the SONIA reference rate is not made available on the Relevant Screen Page and has not otherwise been published by the relevant authorised distributors, then unless the Agent (or such other

Calculation Agent specified in the applicable Final Terms) has been notified of any Successor Rate or Alternative Rate (and any related Adjustment Spread or Benchmark Amendments) pursuant to Condition 4.3, if applicable, the SONIA reference rate in respect of such London Banking Day shall be:

- (x) the sum of (i) the Bank of England's Bank Rate (the **Bank Rate**) prevailing at the close of business on the relevant London Banking Day; and (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five London Banking Days in respect of which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads); or
- (y) if the Bank Rate under paragraph (x) above is not available at the relevant time, either (A) the SONIA reference rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day in respect of which the SONIA reference rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) or (B) if this is more recent, the latest rate determined under (x) above,

and, in each case, references to **SONIA reference rate** in Condition 4.2(b)(2)(A) above shall be construed accordingly.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 4.2(b)(2)(A), and without prejudice to Condition 4.3, the Rate of Interest shall be:

- (i) that determined as at the last preceding Interest Determination Date on which the Rate of Interest was so determined (though substituting, where a different Margin, Maximum Rate of Interest and/or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) relating to the relevant Interest Period, in place of the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as applicable) relating to that last preceding Interest Period); or
- (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first scheduled Interest Period had the Notes been in issue for a period equal in duration to the first scheduled Interest Period but ending on (and excluding) the Interest Commencement Date (applying the Margin and, if applicable, any Maximum Rate of Interest and/or Minimum Rate of Interest, applicable to the first scheduled Interest Period),

in each case as determined by the Agent (or such other Calculation Agent specified in the applicable Final Terms).

(B) where the Reference Rate is specified in the applicable Final Terms as being SONIA and the Calculation Method is specified in the applicable Final Terms as being Compounded Index Rate, the Rate of Interest for each Interest Period will be Compounded Daily SONIA for the Interest Period, plus or minus (as indicated in the applicable Final Terms) the Margin, if any, all determined by the Agent (or such other Calculation Agent specified in the applicable Final Terms) on each relevant Interest Determination Date.

Compounded Daily SONIA means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) (expressed as a percentage and rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) determined by the Agent (or such other Calculation Agent specified in the applicable Final Terms) by reference to the screen rate or index for compounded daily SONIA rates administered by the administrator of the SONIA reference rate that is published or displayed on the Relevant Screen Page specified in the applicable Final Terms or, if no such page is so specified or if such page is unavailable at the relevant time, as otherwise published or displayed by such administrator or other information service from time to time on the relevant Interest Determination Date (the **SONIA Compounded Index**), and in accordance with the following formula:

$$\left(\frac{\text{SONIA Compounded Index}_y}{\text{SONIA Compounded Index}_x} - 1 \right) \times \frac{365}{d}$$

where:

d is the number of calendar days from (and including) the day in relation to which SONIA Compounded Index_x is determined to (but excluding) the day in relation to which SONIA Compounded Index_y is determined;

SONIA Compounded Index_x means, with respect to an Interest Period, the SONIA Compounded Index determined in relation to the day falling the Relevant Number of London Banking Days prior to the first day of such Interest Period;

SONIA Compounded Index_y means, with respect to an Interest Period, the SONIA Compounded Index determined in relation to the day falling the Relevant Number of London Banking Days prior to the Interest Payment Date for such Interest Period, or such other date as when the relevant payment of interest falls to be due (but which by definition or the operation of the relevant provisions is excluded from such Interest Period);

London Banking Day means any day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London; and

Relevant Number is as specified in the applicable Final Terms (or, if no such number is specified, five).

If the relevant SONIA Compounded Index is not published or displayed by the administrator of the SONIA reference rate or other information service by 5.00 p.m. (London time) (or, if later, by the time falling one hour after the customary or scheduled time for publication thereof in accordance with the then-prevailing operational procedures of the administrator of the SONIA reference rate or of such other information service, as the case may be) on the relevant Interest Determination Date, the Compounded Daily SONIA rate for the applicable Interest Period for which SONIA Compounded Index is not available shall be Compounded Daily SONIA determined in accordance with Condition 4.2(b)(2)(A) above as if Compounded Index Rate is not specified as being applicable in the applicable Final Terms. For these purposes, the Calculation Method shall be deemed to be Compounded Daily Rate, and for these purposes: (i) the Observation Method shall be deemed to be Shift and (ii) the Observation Lookback Period shall be deemed to be equal to the Relevant Number of London Banking Days, as if those alternative elections had been made.

(C) if the Notes become due and payable otherwise than on an Interest Payment Date, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the due date on which such Notes become due and payable and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date and as if (solely for the purpose of such interest determination) the relevant Interest Period had been shortened accordingly.

(3) Other definitions:

Banking Day means, in respect of any place, any day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in that place or, as the case may be, as indicated in the applicable Final Terms;

Interest Determination Date means the day or Banking Day, as the case may be, as of which any rate is to be determined as specified in the applicable Final Terms, or if none is specified, the day or Banking Day on which it is customary to determine such rate;

Reference Banks means, in the case where the Reference Rate is EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone inter-bank market, or otherwise such banks as may be specified in the applicable Final Terms as the Reference Banks;

Reference Rate means EURIBOR or SONIA as specified in the Final Terms;

Relevant Screen Page means such page, whatever its designation, on which the Reference Rate that is for the time being displayed on the Reuters Monitor Money Rates Service or Dow Jones Market Limited or other such service, as specified in the applicable Final Terms; and

Specified Time means the time as of which any rate is to be determined as specified in the applicable Final Terms, or if none is specified, the time at which it is customary to determine such rate.

(c) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(d) Determination of Rate of Interest and calculation of Interest Amounts

The Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or
- (ii) in the case of Floating Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 4.2:

- (A) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (F) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30;

- (G) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(e) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period or Specified Period in the applicable Final Terms, the Rate of Interest for such Interest Period or Specified Period shall be calculated by the Agent (or if the Agent is not the Calculation Agent, the Calculation Agent specified in the applicable Final Terms) by straight line linear interpolation by reference to two rates based on the relevant Reference Rate, one of which shall be determined as if the Designated Maturity (as defined below) were the period of time for which rates are available next shorter than the length of the relevant Interest Period or Specified Period and the other of which shall be determined as if the Designated

Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period or Specified Period, provided however, that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent (or if the Agent is not the Calculation Agent, the Calculation Agent specified in the applicable Final Terms) shall determine such rate at such time and by reference to such sources as the Issuer shall determine as appropriate for such purposes. For the purposes of this paragraph, the expression **Designated Maturity** means the period of time designated in the Reference Rate.

(f) Notification of Rate of Interest and Interest Amounts

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period or Specified Period and the relevant Interest Payment Date to be notified to the Issuer, the Trustee and the London Stock Exchange on which the relevant Floating Rate Notes are for the time being admitted to trading and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period or Specified Period. Any such amendment will promptly be notified to the London Stock Exchange on which the relevant Floating Rate Notes are for the time being admitted to trading and to the Noteholders in accordance with Condition 13. For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(g) Determination or Calculation by Calculation Agent

If for any reason at any relevant time the Agent defaults in its obligation to determine the Rate of Interest or to calculate any Interest Amount in accordance with subparagraph (b)(i) or subparagraph (b)(ii) above, as the case may be, and in each case in accordance with paragraph (d) and/or (e) above, the Issuer shall appoint a calculation agent (which shall be an investment bank or other suitable financial services entity of international repute, and any fees, costs and expenses in relation thereto shall be met by the Issuer) to determine such Rate of Interest at such rate as, in the calculation agent's absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition 4.2, but subject always to any Minimum Rate of Interest or Maximum Rate of Interest specified in the applicable Final Terms), it shall deem fair and reasonable in all the circumstances or, as the case may be, the calculation agent shall calculate the Interest Amount(s) in such manner as the calculation agent shall deem fair and reasonable in all the circumstances and each such determination or calculation shall be deemed to have been made by the Agent.

(h) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4.2, whether by the Agent (or if the Agent is not the Calculation Agent, the Calculation Agent specified in the applicable Final Terms) shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantors, the Agent or such other Paying Agents, the other Paying Agents, the Trustee, the Noteholders and the Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Guarantors, the Trustee, the Noteholders or the Couponholders shall attach to the Agent or such other Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

4.3 Benchmark Discontinuation

Notwithstanding the provisions in Condition 4.2 above, if the Issuer, in consultation with the Agent, determines that a Benchmark Event has occurred in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to that Original Reference Rate, then the following provisions of this Condition 4.3 shall apply.

(a) Successor Rate or Alternative Rate

If there is a Successor Rate, then the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Successor Rate and that Successor Rate shall (subject to adjustment as provided in Condition 4.3(b)) subsequently be used by the Agent (or such other Calculation Agent specified in the applicable Final Terms) in place of the Original Reference Rate to determine the relevant Rate of Interest

(or the relevant component part thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 4.3).

If there is no Successor Rate but the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, determines that there is an Alternative Rate, then the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Alternative Rate and that Alternative Rate shall (subject to adjustment as provided in Condition 4.3(b)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate of Interest (or the relevant component part thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 4.3).

(b) Adjustment Spread

If a Successor Rate or Alternative Rate is determined in accordance with Condition 4.3(a), the Issuer, acting in good faith and in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, shall determine an Adjustment Spread (which may be expressed as a specified quantum or a formula or methodology for determining the applicable Adjustment Spread (and for the avoidance of doubt, an Adjustment Spread may be positive, negative or zero)), which Adjustment Spread shall be applied to the relevant Successor Rate or the Alternative Rate (as the case may be for each subsequent determination of a relevant Rate of Interest (or the relevant component part thereof) by reference to such Successor Rate or Alternative Rate (as applicable)).

Following any such determination of the Adjustment Spread, the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Adjustment Spread and the Agent (or such other Calculation Agent specified in the applicable Final Terms) shall apply such Adjustment Spread to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or any component part thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(c) Benchmark Amendments

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 4.3 and the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, determines in its discretion (A) that amendments to these Conditions, the Agency Agreement and/or the Trust Deed are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the “Benchmark Amendments”) and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to the Issuer having to give notice thereof to the Trustee and the Noteholders in accordance with Condition 13, without any requirement for the consent or approval of Noteholders or the Couponholders, modify these Conditions and/or the Trust Deed and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

Prior to any such Benchmark Amendments taking effect, the Issuer shall provide a certificate signed by two Directors to the Trustee confirming, in the Issuer’s reasonable opinion (following consultation with the Independent Adviser), (i) that a Benchmark Event has occurred, (ii) the Successor Rate or Alternative Rate (as applicable), (iii) where applicable, any Adjustment Spread and (iv) where applicable, the terms of any Benchmark Amendments in each case determined in accordance with this Condition 4 that such Benchmark Amendments are necessary to give effect to any application of this Condition 4 and the Trustee shall be entitled to rely on such certificate without further enquiry or liability to any person. For the avoidance of doubt, the Trustee shall not be liable to the Noteholders, the Couponholders or any other person for so acting or relying on such certificate, irrespective of whether any modification to give effect to a Benchmark Amendment is or may be materially prejudicial to the interests of any such person. The Successor Rate or Alternative Rate (as applicable), any Adjustment Spread (where applicable) and any Benchmark Amendments, without prejudice to the Trustee’s ability to rely on such certificate (as aforesaid), will be binding on the Issuer, the Trustee, the Agent (or such other Calculation Agent specified in the applicable Final Terms), the other Paying Agents, the Noteholders and the Couponholders.

The Trustee shall, at the direction and expense of the Issuer, but subject to receipt by the Trustee of a certificate signed by two Directors (as aforesaid), be obliged to concur with the Issuer in effecting any Benchmark Amendments (including, *inter alia*, by the execution of a deed supplemental to or amending

the Trust Deed and, if required, the Agency Agreement), provided that the Trustee shall not be required to effect any Benchmark Amendments if the same would, in the Trustee's sole opinion, impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend its rights and/or the protective provisions afforded to it. For the avoidance of doubt, no Noteholder or Couponholder consent shall be required in connection with effecting the Benchmark Amendments or such other changes, including for the execution of any documents, amendments or other steps by the Issuer or the Trustee (if required).

In connection with any such modifications in accordance with this Condition 4.3(c), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

Any Benchmark Amendments determined under this Condition 4.3(c) shall be notified promptly by the Issuer to the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of such Benchmark Amendments.

(d) Independent Adviser

In the event the Issuer is to consult with an Independent Adviser in connection with any determination to be made by the Issuer pursuant to this Condition 4.3, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, for the purposes of any such consultation.

An Independent Adviser appointed pursuant to this Condition 4.3 shall act in good faith, in a commercially reasonable manner and (in the absence of fraud or wilful default) shall have no liability whatsoever to the Issuer or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with any determination made by the Issuer pursuant to this Condition 4.3 or otherwise in connection with the Notes.

If the Issuer is in any doubt as to whether there is an Alternative Rate and/or any Adjustment Spread is required to be applied and/or in relation to the quantum of, or any formula or methodology for determining such Adjustment Spread and/or whether any Benchmark Amendments are necessary and/or in relation to the terms of any such Benchmark Amendments, a written determination of an Independent Adviser in respect thereof shall be conclusive and binding on all parties, save in the case of manifest error, and (in the absence of fraud or wilful default) the Issuer shall have no liability whatsoever to the Noteholders in respect of anything done, or omitted to be done, in relation to that matter in accordance with any such written determination.

No Independent Adviser appointed in connection with the Notes (acting in such capacity), shall have any relationship of agency or trust with the Noteholders.

(e) Survival of Original Reference Rate Provisions

Without prejudice to the obligations of the Issuer under this Condition 4.3, the Original Reference Rate and the fallback provisions provided for in Condition 4.2 and the applicable Final Terms will continue to apply unless and until a Benchmark Event has occurred and only then once the Agent (or such other Calculation Agent specified in the applicable Final Terms) has been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread (if applicable) and Benchmark Amendments (if applicable), in accordance with the relevant provisions of this Condition 4.3.

(f) Definitions

In this Condition 4.3:

Adjustment Spread means either a spread (which may be positive, negative or zero), or the formula or methodology for calculating a spread and the spread resulting from such calculation, which spread is to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body;
- (ii) in the case of an Alternative Rate or (where (i) above does not apply) in the case of a Successor Rate, the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include

- (iii) if no such determination has been made, the Independent Adviser (in consultation with the Issuer) determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as applicable);

Alternative Rate means an alternative rate to the Original Reference Rate which the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, determines in accordance with this Condition 4.3 has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for debt securities, with a commensurate interest period and in the same Specified Currency as the Notes or, if no such rate exists, the rate which is most comparable (among other factors, on the basis of interest period and Specified Currency) to the Original Reference Rate;

Benchmark Event means:

- (i) the Original Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist or ceasing permanently to be calculated, administered and published;
- (ii) the later of (a) the making of a public statement by the administrator of the Original Reference Rate that it will, on or before a specified date, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate) and (b) the date falling six months prior to the specified date referred to in (a) above;
- (iii) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been permanently or indefinitely discontinued;
- (iv) the later of (a) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (b) the date falling six months prior to the specified date referred to in (a) above;
- (v) the later of (a) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that means the Original Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case on or before a specified date and (b) the date falling six months prior to the specified date referred to in (a) above;
- (vi) the later of (a) the making of a public statement by the supervisor of the administrator of the Original Reference Rate announcing that such Original Reference Rate is or will, on or before a specified date, be no longer representative and (b) the date falling six months prior to the specified date referred to in (a) above; or
- (vii) it has or will prior to the next Interest Determination Date become unlawful for the Agent, any Calculation Agent, any Paying Agent or the Issuer to determine any Rate of Interest and/or calculate any Interest Amount using the Original Reference Rate;

Calculation Agent means such person appointed by the Issuer as calculation agent in relation to the Notes and, if not the Agent, as specified in the applicable Final Terms and shall include any successor calculation agent appointed in respect of such Notes;

Independent Adviser means an independent financial institution of international repute or other independent financial adviser of recognised standing with appropriate expertise in the debt capital markets appointed by the Issuer at its own expense;

Original Reference Rate means the Reference Rate originally specified in the applicable Final Terms for the purposes of determining the relevant Rate of Interest (or any component part thereof) in respect of the Notes (provided that if, following one or more Benchmark Events, such Reference Rate originally specified in the applicable Final Terms for the purposes of determining the relevant Rate of Interest (or any component part thereof) in respect of the Notes (or any Successor Rate or Alternative Rate which has replaced it) has been replaced by a (or a further) Successor Rate or Alternative Rate and a Benchmark Event subsequently occurs in respect of such Successor Rate or Alternative Rate, the term **Original Reference Rate** shall include any such Successor Rate or Alternative Rate);

Relevant Nominating Body means, in respect of an Original Reference Rate:

- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (A) the central bank for the currency to which the Original Reference Rate relates, (B) any central bank or other supervisory authority which is responsible for supervising the administrator of the Original Reference Rate, (C) a group of the aforementioned central banks or other supervisory authorities, or (D) the Financial Stability Board or any part thereof; and

Successor Rate means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

4.4 Accrual of interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal is improperly withheld or refused. In such event, interest will continue to accrue as provided in the Trust Deed.

5. Payments

5.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and
- (b) payments in euro will be made by credit or transfer to a euro account (or to any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 7.

5.2 Presentation of definitive Notes and Coupons

Payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes, and payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Fixed Rate Notes in definitive form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 7) in respect of such principal (whether

or not such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Note** is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued but unpaid in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

5.3 Payments in respect of Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes or otherwise in the manner specified in the relevant Global Note, where applicable against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent located outside the United States except as provided below. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note either by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, as applicable.

5.4 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer or, as the case may be, the Guarantors will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, as the case may be, for the holder's share of each payment so made by the Issuer or, as the case may be, the Guarantors to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer and the Guarantors, adverse tax consequences to the Issuer or any Guarantor.

5.5 Payment Day

Unless specified otherwise in the applicable Final Terms, if the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, **Payment Day** means any day which (subject to Condition 8) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and:
 - (i) the relevant place of presentation (if presentation is required);
 - (ii) each Additional Financial Centre specified in the applicable Final Terms; and
- (b) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET System is open.

5.6 Interpretation of principal and interest

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 7 or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6.8); and
- (f) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7 or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed.

6. Redemption and Purchase

6.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Maturity Date, each as specified in the applicable Final Terms.

6.2 Redemption for tax reasons

The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than 10 nor more than 60 days' notice in writing to the Trustee and the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), if the Issuer satisfies the Trustee immediately before the giving of such notice that:

- (a) on the occasion of the next payment due under the Notes, either the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7 or no Guarantor would be able for reasons outside its control to procure payment by the Issuer and in making payment itself be able to make such payment without being required to pay such additional amounts, in each case as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (b) such obligation cannot be avoided by the Issuer or, as the case may be, any Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or, as the case may be, the relevant Guarantor(s) would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Trustee a certificate signed by two Directors of the Issuer or, as the case may be, two Directors of the relevant Guarantor(s) stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will or, as the case may be, the relevant Guarantor(s) have or will become obliged to pay such additional amounts as a result of such change or amendment and the Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders and the Couponholders.

Notes redeemed pursuant to this Condition 6.2 will be redeemed at their Early Redemption Amount referred to in Condition 6.8 below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

6.3 Redemption following notice of termination of the Service Agreement

If, at any time while any Note remains outstanding, a notice (a **Service Agreement Termination Notice**) is given to terminate the Service Agreement in accordance with its terms the Issuer shall promptly give notice thereof to the Noteholders in accordance with Condition 13 and, thereafter:

- (a) *Issuer call*: the Issuer may, at its option, redeem all or some only of the Notes at any time, on giving not less than 10 nor more than 60 days' notice in writing to the Trustee and the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable); and
- (b) *Noteholder put*: where the Service Agreement Termination Notice has been given by Motability Operations Limited, the holder of any Note may, upon giving not less than 10 nor more than 30 days' notice to the Issuer in accordance with Condition 13, require the Issuer to redeem such Note on the date specified in such notice, whereupon the Issuer shall be obliged to effect such redemption; and
- (c) *Mandatory redemption*: any Note outstanding on the Service Agreement Termination Early Redemption Date (as defined below) shall become due and repayable on the Service Agreement Termination Early Redemption Date.

Notes redeemed pursuant to this Condition 6.3 will be redeemed at the Applicable Early Redemption Price (as defined below) together (if appropriate) with interest accrued to (but excluding) the date of redemption.

The provisions of Condition 6.4 and 6.7 below shall apply, *mutatis mutandis*, to the exercise by the Issuer or any Noteholder, as the case may be, of any option to redeem the Notes pursuant to paragraph (a) or (b) above.

Where any Notes are to be redeemed in accordance with paragraph (c) above, the Issuer shall give not less than 10 nor more than 60 days' notice thereof to the Trustee in writing, the Agent and, in accordance with Condition 13, the Noteholders (which notice shall specify the Service Agreement Termination Early Redemption Date and the Applicable Early Redemption Price).

In this Condition 6.3, the following expressions shall have the following meanings:

Applicable Early Redemption Price means:

- (i) where either (A) the Service Agreement Termination Notice has been given by Motability Operations Limited or (B) the Notes are being redeemed at the option of the Issuer in accordance with paragraph (a) above, the Make-Whole Price; and
- (ii) in any other case, the Modified Make-Whole Price.

Financial Adviser means a financial adviser selected by the Issuer.

Gross Redemption Yield means a yield expressed as a percentage and calculated by the Financial Adviser in accordance with generally accepted market practice.

Make-Whole Price means whichever is the higher of:

- (i) 100 per cent. of the principal amount of the Notes being redeemed; or

- (ii) the price (as reported to the Issuer by the Financial Adviser and expressed as a percentage) that provides for a Gross Redemption Yield on such Notes on the Reference Date equal (after adjusting for any difference in compounding frequency) to the Gross Redemption Yield provided by the Reference Bond(s) based on the Reference Bond Rate at the Specified Time on the Reference Date plus the Redemption Margin (if any).

All Notes so purchased will be surrendered to a Paying Agent for cancellation.

6.10 Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to Condition 6.9 above (together with all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be reissued or resold.

In such event, the Issuer or, as the case may be, the Guarantors will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) where presentation of the Note or Coupon is required, presented for payment in the United Kingdom;

- (b) where the withholding or deduction in question is required solely by virtue of the Noteholder or Couponholder having some connection with a Tax Jurisdiction other than the mere holding of such Note or Coupon;
- (c) where presentation of the Note or Coupon is required, presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 5.5); or
- (d) where such withholding or deduction is required pursuant to an agreement described in Section 1471(b) of the United States Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations, agreements or undertakings thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto.

As used herein:

- (i) **Tax Jurisdiction** means (A) with respect to payments made by the Issuer, the United Kingdom or any political subdivision or any authority thereof or therein having power to tax and (B) with respect to payments made by each Guarantor, the place of incorporation of the relevant Guarantor or any political subdivision or any authority thereof or therein having power to tax; and
- (ii) the **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Trustee or the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

8. Prescription

The Notes and Coupons will become void unless claims in respect of principal and/or interest are made within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 7) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 8 or Condition 5.2 or any Talon which would be void pursuant to Condition 5.2.

9.2 Enforcement

The Trustee may at any time, in its sole discretion and without notice, take such proceedings against the Issuer and/or the Guarantors as it may think fit to enforce the provisions of the Trust Deed, the Notes and

the Coupons, but it shall not be bound to take any such proceedings or any other action in relation to the Trust Deed, the Notes or the Coupons unless (i) it shall have been so directed by an Extraordinary Resolution or so requested in writing by the holders of at least one-quarter in aggregate nominal amount of the Notes then outstanding and (ii) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.

No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer or the Guarantors unless the Trustee, having become bound so to proceed, fails or is unable to do so within a reasonable period and the failure or inability shall be continuing.

10. Replacement of Notes, Coupons and Talons

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

11. Paying Agents

The names of the initial Paying Agents and their initial specified offices are set out below. If any additional Paying Agents are appointed in connection with any Series, the names of such Paying Agents will be specified in the applicable Final Terms.

The Issuer is entitled, with the prior written approval of the Trustee, to vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts, provided that:

- (a) there will at all times be an Agent;
- (b) so long as the Notes are admitted to trading on the main market of the London Stock Exchange, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the London Stock Exchange; and
- (c) there will at all times be a Paying Agent in a jurisdiction within Europe, other than the jurisdiction in which the Issuer or any Guarantor is incorporated.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 5.4. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 13.

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and the Guarantors and, in certain circumstances specified therein, of the Trustee and do not assume any obligation to, or relationship of agency or trust with, any Noteholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

12. Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 8.

13. Notices

All notices regarding the Notes will be deemed to be validly given if published in a leading English language daily newspaper of general circulation in London. It is expected that any such publication in a newspaper will be made in the *Financial Times* in London. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of the London Stock Exchange or other relevant authority on which the Notes are for the time being admitted. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided

above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, be substituted for such publication in such newspaper(s) the delivery of the relevant notice to Euroclear and/or Clearstream for communication by them to the holders of the Notes and, in addition, for so long as any Notes are admitted to trading on the main market of the London Stock Exchange where the rules of such stock exchange so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the day after such notice is delivered to Euroclear and/or Clearstream.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Agent through Euroclear and/or Clearstream, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, as the case may be, may approve for this purpose.

14. Meetings of Noteholders, Modification, Waiver and Substitution

The Trust Deed contains provisions for convening meetings (including the holding of physical or, wholly or partly, virtual meetings by means of electronic facility or facilities (including telephone and video conference platforms)) of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Coupons or any of the provisions of the Trust Deed. Such a meeting may be convened by the Issuer, the Guarantors or the Trustee and shall be convened by the Issuer if required in writing by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes or the Coupons or the Trust Deed (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Couponholders.

The Trust Deed provides that a resolution in writing signed by, or on behalf of, the holders of not less than three-quarters of the nominal amount of the Notes shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of the Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders. In the case of Notes represented by a Global Note, the Trust Deed provides that consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Trustee) by or on behalf of the holders of not less than three-quarters of the nominal amount of the Notes for the time being outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of the Noteholders duly convened and held.

A meeting of Noteholders may be held electronically rather than at a physical location or a combination of both as the Trustee may appoint or approve in writing in accordance with the Trust Deed.

The Trustee may agree, without the consent of the Noteholders or Couponholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the Trust Deed, or determine, without any such consent as aforesaid, that any Event of Default or potential Event of Default shall not be treated as such, where, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders so to do or may agree, without any such consent as aforesaid, to any modification which is of a formal, minor or technical nature or to correct a manifest error or an error which, in the opinion of the Trustee, is proven. In addition, the Trustee shall be obliged to concur with the Issuer in effecting any Benchmark Amendments without the consent

of the Noteholders or Couponholders. Any such modification shall (unless the Trustee agrees otherwise) be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 13 as soon as practicable thereafter.

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Guarantors, the Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 7 and/or any undertaking or covenant given in addition to, or in substitution for, Condition 7 pursuant to the Trust Deed.

The Trustee may, without the consent of the Noteholders, agree with the Issuer to the substitution in place of the Issuer (or of any previous substitute under this Condition) as the principal debtor under the Notes, the Coupons and the Trust Deed of another company, being a Subsidiary of the Issuer, subject to (a) the Notes being unconditionally and irrevocably guaranteed by the Guarantors, (b) the Trustee being satisfied that the interests of the Noteholders will not be materially prejudiced by the substitution and (c) certain other conditions set out in the Trust Deed being complied with.

Subject to Condition 3.2, the Trustee may, without the consent of the Noteholders, agree with the Issuer that a Guarantor (other than Motability Operations Group plc or Motability Operations Limited) shall cease to be a Guarantor where such Guarantor is the subject of a disposal or a solvent winding-up, dissolution or liquidation.

15. Indemnification of the Trustee and Trustee Contracting with the Obligors

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking action unless indemnified to its satisfaction.

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*, (a) to enter into business transactions with the Obligors and/or any of their respective Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Obligors and/or any of their respective Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

16. Further Issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders or the Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

17. Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of this Note under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

18. Governing Law and Submission to Jurisdiction

18.1 Governing law

The Trust Deed, the Agency Agreement, the Notes and the Coupons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Agency Agreement, the Notes and the Coupons are governed by, and shall be construed in accordance with, English law.

18.2 Submission to jurisdiction

The Issuer irrevocably agrees, for the benefit of the Trustee, the Noteholders and the Couponholders, that the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Trust Deed, the Notes and/or the Coupons (including a dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Agency Agreement, the Notes and/or the Coupons) and accordingly submits to the exclusive jurisdiction of the English courts.

The Issuer waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum. The Trustee, the Noteholders and the Couponholders may take any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with the Trust Deed, the Notes and the Coupons (including any Proceedings relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes and/or the Coupons) against the Issuer in any other court of competent jurisdiction and concurrent Proceedings in any number of jurisdictions.

USE OF PROCEEDS

Unless otherwise specified in the applicable Final Terms, an amount equal to the net proceeds from each issue of Notes will be applied by the Issuer, as indicated in the applicable Final Terms, either:

- (a) for general corporate purposes of the Issuer and/or any of its subsidiaries, which include making donations to the Foundation; or
- (b) to finance or refinance, in whole or in part, Eligible Social Projects.

Eligible Social Projects means new eligible social expenditures and/or existing eligible social expenditures, whose disbursement occurred no earlier than 24 months prior to the issue date of the Notes as set out in the Issuer's Social Bond Framework on a portfolio basis to fund both the extant fleet and the new vehicles joining the Scheme in the future. The assets are purchased solely for the use of customers and usually follow a rolling three-year profile. At the end of the lease, a customer can choose to take a new vehicle and return their old vehicle to the Issuer, at which point the old vehicle is sold into the used car market. In some cases, extensions to the lease may be made when customers choose to retain their vehicle for a period longer than 36 months. Vehicles are not recycled within the Scheme; once a vehicle is no longer required by the customer it is sold. All assets bought are new, directly from the manufacturers' dealer network. All vehicles are for the use or benefit of qualifying disabled customers who receive a Mobility Allowance. The portfolio approach to assets ensures the Issuer is not required to identify specific leases or vehicles against the applicable net proceeds from each issue of Notes.

Eligible Social Projects will be selected and evaluated on the basis set out in the Issuer's Social Bond Framework.

The Issuer has set up a committee (the **Committee**), chaired by the Issuer's Chief Finance Officer, which will review semi-annually (or more frequently as required) adherence to the project evaluation and selection process principles for Eligible Social Projects and that the 2023 Social Bond Principles published by the International Capital Market Association (the **ICMA Social Bond Principles**) are being met.

On a semi-annual basis, the Committee will review the aggregate pool of social expenditures for alignment with Eligible Social Projects. The Committee will also review the management of proceeds for Eligible Social Projects and facilitate reporting on the allocation of net proceeds to Eligible Social Projects. Reporting on the allocation of net proceeds from each issue of Notes to Eligible Social Projects and, wherever feasible, reporting on the impact of the Eligible Social Projects. The Issuer is committed to report one year from each issue of Notes for which the "Reasons for the offer" is specified in the applicable Final Terms as the financing or refinancing, in whole or in part, of Eligible Social Projects, and annually thereafter, until full allocation of the net proceeds from each issue of such Notes. The Issuer will also engage an assurance provider or an external reviewer to assess and report on the Issuer's compliance with its Social Bond Framework on an annual basis. All of these reports will be made available on the Issuer's website at <https://www.mo.co.uk/our-performance/investor-hub/>.

Full deployment of the net proceeds from each issue of Notes to Eligible Social Projects may not occur over a short period. During the period between receipt of net proceeds of an issue of Notes and their full deployment to Eligible Social Projects, the Issuer may hold unused amounts in investments until required. Income earned from investments will be distributed to the Issuer.

The Issuer's Social Bond Framework, which has been prepared in accordance with the ICMA Social Bond Principles, is available on the Issuer's website at <https://www.mo.co.uk/our-performance/investor-hub/>.

The Issuer has appointed DNV to assess the Issuer's Social Bond Framework. DNV has reviewed the Issuer's Social Bond Framework to confirm its alignment with the ICMA Social Bond Principles, providing the Issuer with a second party opinion. The objective of this opinion is to provide investors with an independent assessment on the Issuer's Social Bond Framework. The second party opinion provided by DNV is available on the Issuer's website at <https://www.mo.co.uk/our-performance/investor-hub/>.

DESCRIPTION OF THE ISSUER

Overview of the Scheme

The Group provides a wide range of affordable vehicles, powered wheelchairs and scooters to disabled customers through lease schemes. As the largest fleet operator in the UK, and owned by affiliates of investor banks Barclays Bank PLC, HSBC Bank plc, Lloyds Banking Group plc and NatWest Group plc (together the **Investor Banks**), the Group is part of a unique business model including a three-way partnership between the UK Government, the Foundation and private sector financing and expertise.

The Group is the operator of a scheme which enables disabled people to use their Government-funded mobility allowances to obtain a vehicle, powered wheelchair or scooter, through a lease contract (the **Scheme**). The vehicle part of the Scheme is underpinned by the Service Agreement which contains a seven year notice provision. The Group was awarded the contract to operate the powered wheelchair and scooter part of the Scheme (**PWSS**) from 1 July 2010. Subsequently the Group acquired Route2mobility Limited, the incumbent operator of the PWSS, on 1 October 2010, bringing responsibility for the delivery of the entire PWSS under the control of the Group. The Service Agreement assigns to the Group the exclusive right to receive customers' mobility allowances, being one of the Higher Rate Mobility Component of the Disability Living Allowance, the Personal Independence Payment or the War Pensioners' Mobility Supplement (each a **Mobility Allowance**) direct from the Department for Work and Pensions (**DWP**), the Service Personnel and Veterans Agency and the Northern Ireland Social Security Agency, respectively. This revenue stream is effectively both index-linked and free of customer credit-risk because it is received directly from the UK Government. By choosing to participate in the Scheme, customers assign their Mobility Allowance to the Group and in return the Group provides (as appropriate) a fully taxed, insured, maintained and serviced vehicle, powered wheelchair or scooter.

Business

Breakdown of the business

Although the Issuer has, under a corporate entity structure, only been in existence since June 2008, the Scheme has been operational for nearly 50 years and has supplied over 5.5 million vehicles since its launch in 1978. The Group's customer numbers are currently standing at around 928,000 across the UK, with 928,000 vehicles in the fleet, including around 27,000 powered wheelchairs and scooters, as at 31 July 2026. The Group bought over 273,000 new vehicles and sold approximately 233,000 vehicles into the second-hand market during the 10 months ended 31 July 2026.

The Group's objective is to offer affordable mobility with insurance and breakdown cover for those people in the UK eligible to receive enhanced Mobility Allowances. The Group aims to provide sustained value and choice, combined with first-class customer service and market-leading disability expertise. Successful delivery of these objectives has precipitated a high level of renewals by customers in recent years (92.3 per cent. average renewals in the 12 months up to 30 June 2026).

Underpinning the Group's performance is its robust reserves and risk management methodology that enables the Group to provide customers with sustained affordability since the launch of the Scheme, including through recent market volatility. This has also equipped the Group to respond positively to recent expansion (with record new customer application volumes and faster fulfilment of the existing customer order pipeline as new vehicle supply improved), with a scalable business model capable of accommodating both current and future growth variations in customer numbers as well as mitigating the impact of the increases in the cost base of the Scheme for new leases with effect from 1 July 2026 resulting from removal of the exemption from IPT for the Scheme, as well as the Scheme being subject to VAT of 20 per cent. on Advance Payments and any other payments that are made by customers that are not covered by their welfare benefits. The Issuer re-invests any surpluses earned back into the business for the benefit of Group customers, for example, the Group continues to subsidise electric vehicle pricing and supports customers with new vehicle payments or, as has occurred in the past, makes donations to the Foundation. This means that to the extent that retained profit exceeds capital requirements, following consultation with the Foundation, any additional profit can be reinvested into the customer proposition and/or donations can be made to the Foundation. As a key stakeholder of the Group, it maintains a close working relationship with the Foundation, and the Group is committed, where affordable, to provide the Foundation with financial resources to assist its wider mandate of supporting the UK's disabled population with their transportation needs.

The Group provides a contract hire product including insurance, maintenance and servicing, tyre and windscreen replacement, breakdown assistance and a mileage allowance. Except with respect to

customers who receive their allowance from SSS, the annual mileage allowance on new leases from 1 July 2026 has been reduced from 20,000 miles to 10,000 miles and the charge for miles driven in excess of the annual allowance has increased from 5 pence per mile to 25 pence per mile (including standard rate (20 per cent.) VAT). The Group has reached agreement in principle with the Scottish Government to apply the same changes to new leases for such Scottish customers from 1 September 2026. However, the definitive contractual arrangements have not yet been agreed or executed.

The Group offers wide brand choice with more than 35 manufacturers currently represented on the Scheme. Where a customer wishes to access model variants which are not covered in full by the allowance, the difference (being the Advance Payment) is settled ahead of delivery of the vehicle. The majority of the fleet comprises unadapted vehicles, but a full range of adaptations and wheelchair accessible vehicles are also available (adapted vehicles made up approximately 9.1 per cent. of the fleet at 31 March 2026).

The Group manages and develops relationships with key manufacturers and works in partnership with around 5,100 accredited dealers. The Group proactively manages suppliers to ensure good customer service is maintained on commercial terms.

The Group employs a competent and engaged workforce which is critical to delivering its objectives.

In line with the Group's economic capital principles and in the context of the risks outlined in "*Risk Factors*" above, especially the residual value sales risk, the Group has undertaken a comprehensive assessment at various confidence levels of the material risks associated with its operations. This enables the calculation of the Group's Economic Capital Requirement (**ECR**), using a model to aggregate potential losses at the required confidence level and determine a 'per vehicle' requirement in respect of the car fleet. The Economic Capital methodology used by the Group is conservative and encompasses all material risks, deriving an outcome that management views as reasonable and prudent. The Group aims to maintain sufficient reserves to cover the loss that may arise from all but a one in 10,000 risk event. The estimated ECR per vehicle is then applied to the Group's current and projected car fleet size. This gives an overall current and projected ECR for the full contract hire fleet. The aggregate level of capital is referred to as the Group's Minimum Capital Requirement (**MCR**). The economic capital model is periodically refreshed to reflect changes to the risk profiling and refinements in the modelling. This process is governed by the Group's Risk Management Committee. Group policy is to seek to maintain reserves with an appropriate margin above the MCR.

The Group retains 80 per cent. of its motor insurance exposure through the Issuer's wholly-owned captive insurance subsidiary, MO Reinsurance Limited (**MORL**), which is domiciled in the Isle of Man. MORL is a licensed captive insurer in the Isle of Man which reinsures 80 per cent. of the Scheme's motor insurance exposure and the remaining 20 per cent. of such exposure is retained by the Group's insurance partner, the Direct Line Group or the Aviva Group (following Aviva plc's acquisition of Direct Line Insurance Group, it is the Issuer's understanding that Aviva plc expects to complete the transfer of the Direct Line Group's relevant insurance business to Aviva Insurance Limited under Part VII of the FSMA in December 2026). MORL retains the services of a specialist captive management services provider to manage the operational activities of MORL.

Recent Developments

On 26 November 2025, the Issuer announced as follows:

"Motability Operations Group plc ("Motability Operations") notes the announcement made by the Chancellor of the Exchequer, the Rt Hon Rachel Reeves MP, in the Budget on 26 November 2025, confirming the Government's decision to change the taxes affecting new leases under the Motability Scheme with effect from July 2026.

The measures include:

1. Removal of the current exemption from Insurance Premium Tax (IPT) for the Motability Scheme; and
2. The Motability Scheme will now be subject to Value Added Tax (VAT) at 20% on advance payments.

These changes will increase the overall cost base of the Motability Scheme, with potential implications for vehicle affordability for customers. Motability Operations is assessing measures to mitigate the impact of these taxation changes and to safeguard the Motability Scheme's long-term ability to meet the needs of disabled people, without compromising its financial stability."

Following these taxation changes, changes have been made to the Scheme to keep it as affordable as possible for customers.

The changes affect new leases commencing on or after 1 July 2026, except for customers who receive their allowance from SSS. The Group has reached agreement in principle with the Scottish Government to apply the same changes to new leases for such Scottish customers from 1 September 2026 (although the definitive contractual arrangements have not yet been agreed or executed).

For such new leases, VAT is charged on Advance Payments (and any other payments that are made by customers that are not covered by their welfare benefits, including early termination fees). Three changes will be made to the lease terms. These are reducing the annual mileage allowance, increasing the excess mileage fee and changing tyre replacement limits:

- Mileage allowance: new leases will include a mileage allowance of 10,000 miles a year, 30,000 miles over a three-year lease and 50,000 miles over a five-year new Wheelchair Accessible Vehicle (WAV) lease.
- Excess mileage fees: the excess mileage fee will increase to 25 pence per mile including standard rate (20 per cent.) VAT.
- Tyre replacement: replacement of up to six tyres over a three-year lease, which includes up to four for damage throughout the lease and replacement of up to 10 tyres, with six tyres included for damage for a five-year WAV lease.

Regulatory framework and the Service Agreement

The Foundation, set up in 1977 to assist disabled people with their mobility needs, is governed by its Royal Charter. The Foundation's prime purpose is to ensure that those disabled people who want to use their Mobility Allowance to lease a vehicle through the Scheme always receive the best possible value for money.

By virtue of the Social Security (Claims and Payments) Regulations 1987 as amended (the **Social Security Regulations**) where, under arrangements made or requested by the Foundation, an agreement has been entered into by or on behalf of a beneficiary in respect of whom Mobility Allowances are payable, the Secretary of State may arrange for such Mobility Allowances to be assigned on behalf of such beneficiaries to a third party. Hence, by statute, the Foundation has the ability to cause Mobility Allowances to be diverted from a disabled beneficiary to a third party.

The Group, as operator of the Scheme, has previously been able to take advantage of specific relief relating to VAT and IPT. Tax changes announced in last year's Autumn Budget apply to new leases only from 1 July 2026. These measures include removing the exemption from paying IPT on insurance provided by the Group and applying VAT at 20 per cent. to Advance Payments and any other payments that are made by customers that are not covered by their welfare benefits. VAT on rental payments covered by eligible welfare benefits and VAT on disposal proceeds of ex-lease vehicles continue to be zero-rated. VAT reliefs remain in place for vehicles substantially and permanently adapted for wheelchair and stretcher users and for scooters and motorised wheelchairs; and a new structural relief has been introduced for IPT to reflect those VAT reliefs.

The Service Agreement

The Group's relationship with the Foundation is governed by the Service Agreement which sets out the Foundation's role of overseeing the Scheme. The Foundation and the Group are constitutionally and operationally separate entities. Under the Service Agreement the Foundation has granted the Original Guarantor the exclusive right to utilise the Mobility Allowances.

The Foundation and the Original Guarantor have agreed a protocol to give effect to certain working arrangements between them under the Service Agreement, to the effect that termination of the Service Agreement by either party requires seven years' written notice. An additional early termination provision provides that the Foundation can terminate on three months' notice to the Original Guarantor, provided that at the end of such notice period the Original Guarantor is in a position to prepay all its borrowings and indebtedness.

Under the Service Agreement, the Original Guarantor undertakes to provide certain services, including offering a full service contract hire leasing agreement for new vehicles. Other than the provision of full service contract hire leasing agreements for new vehicles (in respect of which the Original Guarantor has been granted exclusivity) the Foundation is entitled to introduce alternative providers, although the Original Guarantor is entitled to a first right of refusal for the provision of such services. The Original

Description of the Issuer

Guarantor undertakes to procure finance to fund the acquisition, hire, hire purchase, maintenance, tyre replacement, insurance and resale of vehicles under the Scheme.

Group structure

The Issuer was incorporated as the holding company of the Group on 20 March 2008 under the laws of England and Wales with registered number 06541091 and with its registered office at Level 6, 22 Bishopsgate, London EC2N 4BQ. As the parent holding company, the Issuer is dependent on receiving revenues from its subsidiary undertakings. The financial information for the Group can be consolidated at the Issuer level, which facilitates a higher level of transparency. The Investor Banks through their affiliates subscribed for £49,975 of the £50,000 of ordinary share capital of the Issuer and the Law Debenture Trust subscribed for £25.

On 26 June 2008 the Issuer entered into a facility agreement with the Investor Banks for a sum of £2.9 billion. The remaining amounts under such facility agreement were successfully refinanced on 17 December 2013, 26 September 2016 and 31 October 2022 (as amended on 6 December 2023), by new facility agreements with the Investor Banks, all of which were for a sum of £1.9 billion (the **Facility Agreements**). Under the financial covenant in the Facility Agreements the Issuer undertakes to ensure that the ratio of Group assets to total net debt is not less than 1.25:1 on the last day of each financial year and each financial half year (in accordance with the latest financial statements).

The Issuer entered into a shareholders' agreement on 30 June 2008 with affiliates of the Investor Banks (together, the **Investor Bank Affiliates**) who together own 99.95 per cent. of the ordinary shares in the Issuer (the **Shareholders' Agreement**). The Shareholders' Agreement sets out the terms governing the relationship between the Issuer and the Investor Bank Affiliates. In particular, under the Shareholders' Agreement each Investor Bank Affiliate undertakes not to exercise its rights as a shareholder to procure a dividend except as set out in the Shareholders' Agreement, and that in the event of a liquidation or winding up of the Issuer an Investor Bank Affiliate will exercise its rights to procure that retained earnings or contingency reserves are applied in accordance with the terms of the Deed of Covenant (as defined below).

The Issuer, the Original Guarantor, among others and the Investor Bank Affiliates entered into a Deed of Covenant on 30 June 2008 (the **Deed of Covenant**), which ensures that on any termination of the Scheme or on a winding up of any Group company the "reserves" in the relevant entity or entities are returned to the Foundation and not to the Investor Bank Affiliates.

Following the acquisition of HBOS plc by Lloyds TSB Bank plc (now renamed Lloyds Bank plc which is part of Lloyds Banking Group plc) (**Lloyds**) in January 2009, Lloyds holds 39.98 per cent. of the ordinary shares of the Issuer.

TAXATION

UK Taxation

The following, which applies only to persons who are beneficial owners of the Notes, is a summary of the Issuer's understanding of current UK law and HM Revenue and Customs' practice in the UK (which may not be binding on HM Revenue and Customs) as at the date of this Offering Circular relating to the withholding tax treatment of interest paid on the Notes and does not deal with any other UK taxation implications of acquiring, holding or disposing of the Notes. The following assumes that there will be no substitution of the Issuer and does not address the consequences of any such substitution (notwithstanding that such substitution may be permitted by the Terms and Conditions of the Notes). Prospective Noteholders who may be subject to tax in a jurisdiction other than the UK should seek their own professional advice.

- (1) The Notes will constitute “quoted Eurobonds” within the meaning of Section 987 of the Income Tax Act 2007 (the **Act**) as long as they carry a right to interest and are and continue to be listed on a “recognised stock exchange” within the meaning of Section 1005 of the Act. In the case of Notes to be traded on the London Stock Exchange, which is a recognised stock exchange, this condition will be satisfied if the Notes are included in the Official List (within the meaning of Part 6 of the FSMA) of the FCA and admitted to trading on the Main Market. Accordingly, payments of interest by the Issuer on the Notes may be made without withholding or deduction for or on account of UK income tax provided the Notes carry a right to interest and are and remain so listed at the time of payment.
- (2) Interest on the Notes may also be paid by the Issuer without withholding or deduction for or on account of UK income tax where the Notes have a maturity date less than 365 days from the date of issue (and the Notes are not issued under arrangements, the effect of which is to render such Notes part of a borrowing with a total term of 365 days or more).
- (3) In other cases, an amount must generally be withheld from payments of interest on the Notes on account of UK income tax at the relevant rate (currently at the basic rate of 20 per cent., and on and after 6 April 2027 at the savings basic rate of 22 per cent.), subject to any direction to the contrary by HM Revenue and Customs under an applicable double taxation treaty, and except that the withholding obligation is disappplied (unless HM Revenue and Customs direct otherwise) in respect of payments to a Noteholder whom the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) is beneficially entitled to the income and is either a UK resident company or a non-UK resident company carrying on a trade in the UK through a permanent establishment which is within the charge to corporation tax as respects such payments, or falls within various categories enjoying a special tax status (including charities and pension funds), or is a partnership beneficially entitled to the income and consisting of such persons.
- (4) Depending on the correct legal analysis of payments in respect of interest on the Notes made by a Guarantor as a matter of UK tax law, which is uncertain, it is possible that such payments by a Guarantor would be subject to withholding on account of UK tax, subject to any applicable exemptions or reliefs.
- (5) Where Notes are issued on terms that a premium is or may be payable on redemption, then it is possible that any such element of premium may constitute a payment of interest. In certain cases, the same could be true for amounts of discount where Notes are issued at a discount. Payments of interest are subject to withholding on account of UK income tax as outlined in paragraphs 1 to 4 above.
- (6) Where Notes are issued at an Issue Price of less than 100 per cent. of their principal amount (i.e. at a discount), any payments in respect of the accrued discount element on such Notes will not generally be made subject to any withholding or deduction for or on account of UK income tax as long as they do not constitute payments of interest.

SUBSCRIPTION AND SALE

The Dealers have, in a programme agreement (such Programme Agreement as modified and/or amended and/or restated from time to time, the **Programme Agreement**) dated 14 August 2026, agreed with the Issuer and the Guarantors a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “*Form of the Notes*” and “*Terms and Conditions of the Notes*”. In the Programme Agreement, the Issuer (failing which, the Guarantors) have agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or the Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
